**Please read the following agreement. If you have any questions, please ask for clarification.** To the best of my knowledge this puppy is in good health at the time of delivery. The buyer has THREE days to have the puppy vet checked. If a licensed veterinarian discovers the puppy to be unsound, it can be returned for a refund of the purchase price, or a replacement with another puppy of equal or greater value. Either one will be at the breeders discretion. This is provided the puppy is returned within the three- day period and is accompanied by a letter from the examining veterinarian stating in what respect the puppy is unsound.

**This guarantee is void should the buyer fail to have the puppy examined within the three day period. Shipping and ear cropping are not a part of this guarantee and will not be refunded.** Breeder will not replace or refund for any reason but not limited to allergy, mortality, landlord's disapproval, disagreement of family or any other problems not related to health. No warranty for a puppy's illness caused by neglect, exposure to weather, injury, choking, poisoning, etc. No warranty or guarantee is made to the disposition, life-span, size, color, show quality, or breeding quality, or breeding quality of any puppy. **Breeder will not be liable for any expenses including but not limited to any veterinary bills or other expenses.**

Should a licensed veterinarian diagnose the puppy with a life threatening genetic defect, having been there from birth, the breeder will refund or replace the puppy, limited to one year from the date of purchase. No refund or replacement will at any time be made on a deceased puppy until an autopsy is performed to determine the cause of death. Such an autopsy must be performed by an accredited institution. **Autopsies performed by a local veterinarian will not be accepted. ALL expenses will be paid by the owner of the pup.** The autopsy will accompany any request for replacement or refund.

Retained testicles, hernias, over bite, under bite, patella issues, or trachea issues are excluded from this guarantee. The buyer must contact the breeder immediately upon discovery of a genetic defect. Any delay in doing so, voids this guarantee. The breeder also has the right to have the puppy examined by his/her veterinarian. **This guarantee is null and void upon any evidence of**
